Dear Councillor Polhill and Committee Members:

I am writing this letter to comment on one of the amendments proposed in the Near-Campus Neighbourhood Report that is coming before the Planning and Environment Committee. Western has supported many of the initiatives in the original Near Campus Neighbourhood Report in the past and would specifically like to comment on the proposal to reduce the allowable number of bedrooms in multiplex units from the current maximum of five to a maximum of three bedrooms per unit. The University would like to support this initiative as we believe it is in keeping with the original Near Campus Neighbourhood Report and will benefit our students and our campus neighbourhoods.

Sincerely,

Gitta Kulczycki
Vice-President (Resources & Operations)
