Adelaide Street North / Canadian Pacific Railway Grade Separation
Municipal Class Environmental Assessment Study**

The City of London has retained WSP to complete a Municipal Class Environmental Assessment (EA) study for improvements to the Canadian Pacific Railway (CPR) crossing of Adelaide Street North. This project is being carried out under the planning and design process for a Schedule 'C' project as outlined in the Municipal Engineers Association *Municipal Class Environmental Assessment* (October 2000, as amended in 2015).

Proponent: City of London

Location: Adelaide Street North between Oxford Street East and Queens Avenue, including the CPR crossing

Purpose of the Study: The Transportation Development Charges Study (2014) and the London Transportation Master Plan (TMP, 2013) identified the need for a grade separation at the CPR crossing of Adelaide Street North. Currently, trains block the crossing up to 43 times throughout the day, leading to road blockages of up to 126 minutes per day.

Through this Class EA study, the City has considered a range of planning and design alternatives for the grade separation including underpass (rail over road) and overpass (road over rail) and has developed a preliminary design concept that recognizes all users including pedestrians, cyclists, rail, transit vehicles and motorists, and the community setting.

Public Information Centre 3: Three Public Information Centres (PICs) are held during this study. The first PIC was held on June 16, 2016 to review the study scope, existing conditions, need and justification and planning alternatives. PIC 2 was held December 14, 2016 to describe the multi-step design process, review the various design alternatives and obtain public input with respect to urban design components. Since PIC 2 there has been additional technical investigation and review with respect to the design at the CPR crossing.

The purpose to PIC 3 is to present the Preliminary Preferred Design concept that takes into consideration the transportation and technical factors, property impacts, community interests, cultural heritage resources, CPR and public input.

Public Information Centre 3 Details	
Date:	April 26, 2018
Place:	H.B. Beal Secondary School 525 Dundas Street, London ON
Time:	4:00 pm to 7:00 pm (drop-in)

How to Provide Input: Public consultation is a vital component of this study. Learn more about this study on the City's website at <https://getinvolved.london.ca/adelaide-streetcpr-grade-separation>

Please share your thoughts through the study website or by contacting the project team members listed below. Comments will be considered throughout the planning process.

Please note: Information will be collected in accordance with the Municipal Freedom of Information and Protection of Privacy Act. With the exception of personal information, all comments will become part of the public record and may be published in the Reports to Committees and Council Agenda.
