**Subject:** Civic Appointment to Child Care Advisory Committee

Hello Heather,

It was nice to speak with you this afternoon. Further to our conversation, I am writing in response to your letter dated June 13, 2012 indicating that my name had been put forward as a non-voting representative on the Child Care Committee for the City of London. As discussed, while I am very interested and supportive of the work of this committee, I do not have the capacity to sit on this committee at this time. I would be willing to respond to any questions that the committee may have for the Ministry of Education or I would be pleased to attend as a guest to a future meeting if that would be helpful to the committee.

All the best,

Karen
