

Proposed Motion in regards to Toilets Are Not Garbage Cans program.

By ACE Waste Sub-Committee

For consideration at the June 6, 2018 meeting of ACE

Following review and receipt of the following information:

- Presentation to ACE by Barry Orr, Sewer Outreach and Control Inspector – Overview of Current Issues with Respect to What is Going Down Drain / Toilets – March 7, 2018
- Review of Report “International Water Industry Position Statement on Non-Flushable and ‘Flushable’ Labelled Products” by Kelly Scherr, Managing Director, Environmental & Engineering Services and City Engineer to Civic Works Committee May 24, 2017
- Review of Report “Public Education and Communication Program: Toilets Are Not Garbage Cans” by Kelly Scherr, Managing Director, Environmental & Engineering Services and City Engineer to Civic Works Committee December 4, 2017

ACE recommends that the following actions be taken with respect to the Toilets Are Not Garbage Cans Public Awareness - Sticker Initiative coordinated by the Sewer Outreach and Control Inspector of the Wastewater Treatment Operations Department;

- a) That the Civic Administration BE REQUESTED to require all bathroom stalls within City of London facilities to display the Toilets Are Not Garbage Cans sticker no later than July 31 2018, noting that this sticker
 - To our understanding has already been approved for use by the City of London Communications Department
 - is already displayed in some but not all City of London facility bathroom stalls
 - is already being displayed voluntarily by many organizations including retail stores, restaurants and schools.
- b) Furthermore, Civic Administration BE REQUESTED,
 - to identify to ACE via their committee secretary, the key staff in charge of implementing this action so that ACE may follow up with them in the future if desired.
 - that in the event the sticker is not displayed, the reasons for doing so are communicated immediately to ACE so that the concerns can be addressed.
- c) That the Civic Administration BE REQUESTED to report back to ACE by September 7th, 2018 with respect to the feasibility of requiring all facilities that receive City of London funding, including, but not limited to, Centennial Hall, Covent Garden, Museum London, London Public Library locations, Police & Fire Stations, Tourism London, the London Convention Centre, the Deerness Home, Kettle Creek Conservation Authority, Lower Thames Valley Conservation Authority, and Upper Thames Conservation Authority, to display the Toilets Are Not Garbage Cans sticker in all bathroom stalls.
