

To Planning & Environment Committee

I would like to request that the Planning and Environment Committee to direct staff to

undertake a city initiated official plan amendment and zoning bylaw Amendment process to

rezone the subject property . The address I am referring to is 1255 brydges street,

London, Ontario, owned by Geoff Byrne. This request was brought before the committee

on May 10th 2010 by Patricia Mcdace owner of Renaissance Antiques and collectables

employing 99 vendors. I am the owner of a family thrift store called Rags-2-Riches and wish to

use the property for a retail space selling similar items as well as creating new job

opportunities in this area.

*I would like to request a meeting with
Planning & Environment Committee*

Thank you for your time and consideration.

Mark Simmons
