Clarke Road Improvements

Veterans Memorial Parkway Extension to Fanshawe Park Road East

Municipal Class Environmental Assessment

The City of London is undertaking a Municipal Class Environmental Assessment (EA) to identify transportation improvements to the Clarke Road corridor between the Veterans Memorial Parkway (VMP) Extension (currently under detailed design) and Fanshawe Park Road East. The study is being undertaken in accordance with the requirements for Schedule 'C' projects within the Municipal Class EA document (2000, as amended in 2015), under the *Ontario Environmental Assessment Act*.

Why are we studying Clarke Road?

The 2030 Transportation Master Plan and the 2014 Development Charges Background Study identified the widening of Clarke Road (from two to four lanes with consideration given to the ultimate build-out of six lanes) as a priority project to address future traffic volumes associated with background development and improvements to the VMP.

How can I participate in the study?

The first Public Information Centre (PIC) was held Thursday, September 21, 2017, where the existing conditions, present and future traffic demands, alternative solutions and preliminary recommendations were presented. The selected preferred solution was to widen Clarke Road to accommodate four lanes, with an ultimate build-out to six lanes.

The second and final PIC will be held on Wednesday, July 11, 2018 to provide information about the Alternative Design Concepts, the evaluation of Alternative Design Concepts, and the Recommended Alternative Design.

Following the PIC and the receipt of public, agency, and Indigenous community input, a Preferred Design will be selected. An Environmental Study Report (ESR) will be prepared and provided for public review for a 30-day period. PIC display material will be made available on the City's website following the PIC: <http://www.london.ca/residents/Environment/EAs/Pages/Clarke-Road-Improvements.aspx>
