	Create a program of education to ensure that TAC committee members are well-informed on the matters that fall within its mandate.	Recognizing that an advisory committee is made up of stakeholders bringing expertise and perspectives from various backgrounds, it would be helpful to ensure that all members are “up to speed” on practices and procedures by allowing 10-15 minutes per meeting to explore relevant topics. As TAC meetings are open to the public, these sessions would also create an opportunity for other citizens and stakeholders to become better educated about transportation policies and procedures.	Amanda Stratton	ongoing		<u>Strengthening Our Community</u> 2. B	
	Rapid Transit	The TAC is in an excellent position to determine, in concert with the city and other key organizations, how community stakeholders can best support progress on the city’s Rapid Transit Strategy, including funding requests to government, as well as inform Londoners on its progress.
