Engineering Review

Although the City of London's Environmental and Engineering Services Department has no objection to the removal of a holding provision with respect to water and sanitary servicing for the subject lands, nonetheless a Subdivision Agreement has not been finalized at this time.

*Development Planning Staff Response:* The City has recently received the executed subdivision agreement related to Phase I of the Vista Woods.

**ANALYSIS**

What is the Holding Provision?

The purpose of the applying Holding Provision "h", to the subject lands is to ensure the orderly development of lands and the adequate provision of municipal services. The "h" symbol is not be deleted until a subdivision agreement or development agreement is entered into with the City for the lands in question. Until the Holding Provision h is removed, no new uses are permitted. Municipal Council applied the Holding Provision (h) to the subject lands in 2004 at the time of the Vista Woods Subdivision was being approved.

Why is it appropriate to remove the Holding Provision?

The development of the Fox Hollow subdivision to the west provided the necessary municipal service connections to allow for servicing in the Vista Woods Subdivision. The Special Provisions for the Vista Woods subdivision Phase 1 were approved by Municipal Council on September 19, 2011. The applicant has entered into the Subdivision Agreement with the City and has provided the required security. The Subdivision Agreement ensures that the lands will be developed with full municipal services. Based on the above, Development Planning staff recommend the removal of the Holding Provision (h) from the identified zoned lands in the proposed Phase 1 of the Vista Woods subdivision.

Lands Zoned Holding Residential (h. h-54*R5-4/R6-5)

The multi-family block located on the south side of Eagletrace Drive at the easterly limit of this plan is zoned Holding Residential (h. h-54*R5-4/R6-5) which will permit multi-family medium density residential uses. As noted above, it is appropriate to remove the general h. holding provision from this site as a result of the executed subdivision agreement. The h-54 holding provision requires the owner to carry out a noise study and implement the necessary noise attenuation measures to address impacts from Fanshawe Park Road. As a result, it is appropriate to leave this holding provision in place until such time as this block comes forward for development. A separate application to remove the h-54 holding provision will be required at that time.

CONCLUSION

The applicant has satisfied the requirements of Holding Provision (h) as they have executed the subdivision agreement and it is now appropriate to remove the holding provision to allow for the development of single detached dwelling.
