

## PUBLIC PARTICIPATION MEETING COMMENTS

### 3.1 PUBLIC PARTICIPATION MEETING – Amendments to the Consolidated Fees and Charges By-law

- B. Veitch – London Development Institute – noting his submission, as included on the Added Agenda; noting concern with the lack of transparency in the calculating of some fees; noting a better way for the calculation is an indexing method; advising that LDI has offered some alternative rates for consideration, stating that a revised calculation should be based on a better demonstration of the actual costs; advising that there is no understanding of why fees are increasing based on the information provided; and stating that it makes sense from an indexing standpoint and the LDI submission is a compromise.
