An Environmental Impact Study has been prepared to assist in the evaluation of this application. An Environmental Impact Study (EIS) report prepared by Stantec, dated May 1, 2018, was submitted with the application for draft plan of subdivision. The EIS report is available for public review during regular business hours at the City of London, Development Services, 6th Floor, City Hall.

Planning Policies

Any change to the Zoning By-law must conform to the policies of the Official Plan and The London Plan, London's long-range planning documents. Both plans recognize the role of secondary plans to provide more detailed policy guidance for a specific area that goes beyond the general policies. These lands are currently designated as "High Density Residential" which permits multiple attached housing forms at higher densities and building forms as the main uses. The lands are within the Southwest Area Secondary Plan, within the Bostwick Residential Neighbourhood, which includes special polices and direction for high density residential development.

The site is presently within an Urban Reserve (UR4) Zone, which permits existing dwellings, agricultural uses except for mushroom farms, commercial greenhouses, livestock facilities and manure storage facilities, conservation lands, managed woodlot, wayside pit, passive recreation use, kennels, private outdoor recreation clubs, and riding stables, and an Environmental Review (ER) Zone, which permits conservation lands, conservation works, passive recreational uses, managed woodlot, and agricultural uses.
