

Waste Management Community Liaison Community & W12A PLC

Comments on the Draft Proposed Terms of Reference for the
Environmental Assessment of the Proposed W12A Landfill
Expansion

Comments

The Waste Management Community Liaison Community supports the landfill expansion, but does note that the community surrounding the landfill would prefer not to see an expansion.

Our feedback...

The concern is one of other municipalities being allowed to bring waste to our landfill. If Council is the ultimate decision maker on whether another municipality is allowed to use our landfill, we request:

- That there be in place some kind of Policy and/or By-Law that other municipalities must adhere to London's diversion criteria and that Council cannot override this criteria for any such dumping purpose ie - financial.
