TO: The City of London, Mayor and Councillors

RE: Orgaworld

For the past several months, I have been aware of the on-going issues between Orgaworld and the surrounding residents of the facility.

I have heard from many constituents their concerns and have taken the opportunity to discuss these issues with the Mayor of London and some individual councillors.

On November 13th, a meeting with City Council and the residents of this effected area will be taking place. I am requesting that dialogue continues between Orgaworld and the Provincial Government in search for a solution that will benefit the long-term residents of this area.

Please send any recommendations from this meeting to my attention to keep me advised of the future goals.

Sincerely,

Joe Preston
Member of Parliament
Elgin-Middlesex-London
