Dear Ms.Bryant:

Re: 129 Riverside Drive

I've recently received a Notice of Application for Site Plan Approval for the above address. I live close to this property and have grave concerns about the future of the mature trees along the eastern edge of the property. They appear to be close to or on the fence line and greatly enhance the enjoyment and comfort of the property owners nearby. I am requesting that consideration be given to preserving this line of trees during the construction of the new building.

As I am unable to attend the meeting on November 26, 2012 I am asking you to present my concerns to the Planning and Environment Committee on my behalf.

Thank you for assistance in this matter.

Joanne Price
