Town of Aurora  
c/o Matt Zawada, Accessibility Advisor  
100 John West Way, Box 100  
Aurora ON L4G 6J1

Dear Mr. Zawada

Thank you for your fax dated February 19, 2019. We are pleased to learn that the Town of Aurora will be using the City of London's 2007 Facility Accessibility Design Standards (FADS) as a design aid and guide. It should be noted that the City of London is currently revising the 2007 FADS document to incorporate the changes made to the OBC and the AODA in 2014 regarding accessibility.

The City of London continues to encourage and support municipalities and private sector organizations in their barrier-free endeavours and in working together for the removal of barriers in our communities. Please accept this letter as authorization to adapt FADS for your use and do not hesitate to contact me should you require additional information.

Sincerely,

Tim Wellhauser  
Division Manager, Facilities
