Experience and Qualifications

If you have experience on a London Advisory Committee, please provide dates and details. (maximum 750 characters, attach an extra sheet if you need more space)

What do you hope to contribute or learn as part of an Advisory Committee? (maximum 750 characters, attach an extra sheet if you need more space)

As a resident of London who uses bicycle as a primary means of transit, I have a first-person perspective on what works well for casual/commuter cycling, which I believe aligns well with broader transportation goals. I'm also interested in being more involved in the process of city decision-making---I hope to learn more about how transit infrastructure is prioritised, planned, and implemented in London.

Application for Appointment to City of London Advisory Committees

How will you support the work of an Advisory Committee? (maximum 750 characters, attach an extra sheet if you need more space)

I will support the work of the Advisory Committee by attending monthly meetings and providing input based on my experiences as a commuter cyclist and my experiences and studies on transit infrastructure in other cities around the world. I also have a background in User Experience research methodologies, so I believe I would be able to contribute meaningfully to the design and implementation of user studies to test the committee's assumptions around changes to transit infrastructure.

Please describe additional experience, training, or community involvement that will help you in your role as an Advisory Committee Member. (maximum 750 characters, attach an extra sheet if you need more space)

I have a Master's degree in Information Science, with a focus on User Experience research methodologies, as mentioned above.
