Experience and Qualifications

If you have experience on a London Advisory Committee, please provide dates and details. (maximum 750 characters, attach an extra sheet if you need more space)

No experience with respect to London Advisory Committees

What do you hope to contribute or learn as part of an Advisory Committee? (maximum 750 characters, attach an extra sheet if you need more space)

As a resident of London for 59 years I know the City's history and issues. I have been employed and am currently a small, consulting business owner in the fields of motor vehicle collision reconstruction and road safety research for the past 39 years. I am very familiar with roadway safety issues, roadway technical standards, and injury causation in all modes of roadway transportation. I am also an avid cyclist who has been involved in the technical analysis of cycling collisions and cycling infrastructure. Based on these experiences I expect to be exposed to the ideas and opinions of other members of the advisory committees while also offering my input based on my unique background.

How will you support the work of an Advisory Committee? (maximum 750 characters, attach an extra sheet if you need more space)

In those matters where I have specific expertise I can help direct the committee members to specific research and analyses that may otherwise remain unknown or may be more difficult to find. With my long history of residence in London as well as my many years of conducting technical analyses in the City, or its vicinity, I may have a unique perspective that may enrich the committees' recommendations.

Please describe additional experience, training, or community involvement that will help you in your role as an Advisory Committee Member. (maximum 750 characters, attach an extra sheet if you need more space)

I have a long history of reviewing police collision reports and analyses. As a member of the University of Western Ontario Multi-Disciplinary Accident Team in the 1980s I have a familiarity with issues related to Transport Canada's road safety programs. I have been involved in numerous documentations of traffic in the City, on the basis of criminal and civil litigation investigations as well as for the purpose of advancement of road safety research. As an accepted expert witness at all levels of courts in Ontario I have offered expert testimony in both criminal and civil litigation matters.
