Experience and Qualifications

If you have experience on a London Advisory Committee, please provide dates and details. (maximum 750 characters, attach an extra sheet if you need more space)

I was chair of Protocol and Ceremonies for the 2001 Canada Games, I was a board member and Chair of the London Convention Centre. I was a board member and Chair of Banting House, Member of the Board of Jesse's Journey, and Executive Director of the Journey for 2 years. I was Vice President and General Manager of CFPL TV for 9 years.

What do you hope to contribute or learn as part of an Advisory Committee? (maximum 750 characters, attach an extra sheet if you need more space)

I now am less mobile, and require a walker to go places, or where the walker is not convenient, I use a walking stick, for short distances. I am impressed by many businesses and public locations for their conveniences, but am somewhat distressed at others who have made a small try, but really have not understood the problem. My assumption is that this committee tries to bring forward the compliance and urge business owners to realize it would enhance their volume of customers who make choices based on accessibility. I also think I bring an understanding of the stress the need to compliance puts on a business budget, and could add these thoughts to our deliberations.

How will you support the work of an Advisory Committee? (maximum 750 characters, attach an extra sheet if you need more space)

Other than meeting attendance, and observations of the city and its business community, my support would be in the form of a different eye and personal experiences which may be useful.

Please describe additional experience, training, or community involvement that will help you in your role as an Advisory Committee Member. (maximum 750 characters, attach an extra sheet if you need more space)

My answer in the first block of information probably covers this section, but to repeat, my community work has been substantial and continuous up to retirement and beyond. I feel my new difficulties will be a tool to assist in assessment and the proper solutions to items being discussed at committee.
