Experience and Qualifications

If you have experience on a London Advisory Committee, please provide dates and details. (maximum 750 characters, attach an extra sheet if you need more space)

What do you hope to contribute or learn as part of an Advisory Committee? (maximum 750 characters, attach an extra sheet if you need more space)

As an Advisory Committee member, I hope to offer a resident's perspective on City-launched initiatives and/or changes to current policies. As Director of Facilities at the Ivey Business School, I have experience with decision-making and implementation of processes and procedures that can positively or adversely impact the environment and I would like to bring this experience to the table as a member of the Advisory Committee on the Environment.

Application for Appointment to City of London Advisory Committees

How will you support the work of an Advisory Committee? (maximum 750 characters, attach an extra sheet if you need more space)

As a member, I look forward to collaborating with different stakeholders and fellow committee members to discuss and brainstorm solutions that will decrease our environmental footprint, increase efficiencies while leaving a lasting legacy for our younger generation. I feel the City of London has created many important environmental initiatives, however, there is still room for improvement and I believe that City residents have an obligation to get involved in order to make a difference.

Please describe additional experience, training, or community involvement that will help you in your role as an Advisory Committee Member. (maximum 750 characters, attach an extra sheet if you need more space)

My experience spans many years in the construction and facilities management industry. The last ten years of my career have been focused on Facilities Management. As Manager of Facilities, Operations and Infrastructure Development at Goodwill Ontario Great Lakes, I had first-hand experience developing and establishing best practices with regards to green initiatives (ie. waste management, green building practices, employee engagement, energy retrofits etc...). My current role as Director of Facilities at the Ivey Business School builds on my previous experience by focusing on LEED principals and more sustainable management of our physical assets.
