Subject: business license

Hi Barb

I would like to request delegation before the Community and Protective Services Committee regarding licensing issues regarding public garages. I have meet with Councillor White and Orest from bylaw enforcement regarding this matter and Councillor White had recommended this would be the best approach. First would like to know why bylaw enforcement does not have the ability to enforce and business not operating with a proper license. Under the definitions of a public garage ,section 16.3 states no person shall operate without a current license. The business under question has been operating since the beginning of this year without a license. Also would like to know why thier are so many business operating as a public garage as per the definition of part 16 without a license . Examples are Costco, Walmart ,Action Truck and others. Under the definition of a public garage they do fall under one of the 7 classifications. Please let me know if you need any further information.

Thank You
Tony Vieira
