TO:

CHAIR AND MEMBERS –
PLANNING & ENVIRONMENT COMMITTEE

FROM:
JOHN M. FLEMING
MANAGING DIRECTOR, PLANNING AND CITY PLANNER

SUBJECT:
BEAUFORT/ IRWIN/ GUNN/ SAUNBY/ ESSEX (“BIGS”) STREET NEIGHBOURHOOD PLAN
MEETING ON Monday, November 26, 2012

RECOMMENDATION

That; in response to the public, City Department and Agency notice of public meeting/liaison sent on October 19, 2012; the Managing Director, Planning and City Planner, SUBMITTING the attached correspondence received to date on the Beaufort/Irwin/Gunn/Saunby/Essex (“BIGS”) Streets Neighbourhood Draft Plan in advance of the public participation meeting to be held on November 26, 2012.

PREVIOUS REPORTS PERTINENT TO THIS MATTER
August 15, 2011 Report to BNEC entitled “Planning Options for the BIGS Neighbourhood”
October 15, 2012 Report to BNEC containing Draft Neighbourhood Plan

BACKGROUND

Purpose of the Public Meeting

The purpose of this meeting is to provide an opportunity for the public to provide comments on the Draft Plan which was tabled at Planning and Environment Committee (PEC) on October 15, 2012. The Draft Plan was received from the consultants in October 2012. The Plan was based on background research they had completed and comments received at two neighbourhood workshops. To give the public, other City Departments and Agencies an opportunity to review the Draft Plan and provide comments a notice of public meeting and request for comments was sent on October 19, 2012 and a public meeting was scheduled for November 26, 2012.

Following this meeting Planning staff will review all of the comments received and revise the Draft Plan accordingly. It is expected that another public meeting with be held with PEC in the new year to adopt the Plan.

The Process to Date

On August 29, 2011 representatives of the “BIGS” neighbourhood appeared before the Built and Natural Environment Committee (BNEC) to raise concerns about intensification in the area and ask Council to put in place an interim control by-law until revised policies are put in place to control intensification. As a result Council directed that staff report back regarding potential actions that could be done to address these neighbourhood concerns.

On September 12, 2011 a report was presented to BNEC outlining a range of options available to deal with the residents’ concerns. In response, on September 19, 2011, Council directed that a study be undertaken to prepare possible amendments to address the neighbourhood concerns. Council further directed that staff;
(i) retain a Planning Consultant to prepare a planning study for the Essex Street Area bounded by the Canadian Pacific Railway to the south, the Thames River to the east, the University of Western Ontario and Thames River to the north, and Platt’s Lane to the west (see reverse); it being noted that this plan will consolidate the recommendations of the Essex Street Study prepared in March 1995, where appropriate, and may include a master plan and policies to direct future development within the context of the Great Near-Campus Neighbourhoods Strategy;

(ii) consider initiating Official Plan amendments to implement the recommendations of the planning study, as identified in part (i) above; and,

(iii) consider adding zoning regulations in conformity with the Official Plan, as amended, as noted in clause (ii) above;

The City retained Peter J. Smith Company, a planning consulting firm, to undertake this study on March 16, 2012.

A liaison letter was sent to public, agencies and other City departments on May 3, 2012 and Living in the City notice was provided May 12 and 19, 2012 in advance of the first neighbourhood meeting on May 23, 2012. Approximately 20-25 people attended. The first meeting focused on identifying neighbourhood issues, strengths, new ideas and a vision for the neighbourhood (see attached). It was evident at that meeting that the attendees were split evenly between those who wanted to allow further development in the neighbourhood and those that wanted to restrict future development.

A second public liaison letter was sent June 6, 2012 and Living in the City notice given June 8, 2012 in advance the second neighbourhood meeting held on June 20, 2012. This meeting focused on discussing density, form/character, occupancy and neighbourhood condition options (see attached). Again, approximately 20-25 people participated in the workshop and, again, there was the same split in the acceptance of future development as at the previous meeting.

Since the end of June the City and the consultants have been preparing a Draft Plan for public review. The attached Draft Plan is the end result of that effort.
Summary of Key Findings, Draft Plan Recommendations and Directions
Existing Conditions and Key Findings

1. Residential land uses occupy 53% of the total land area of the neighbourhood.

2. Approximately 43% of the housing stock in the neighbourhood is owned by absentee landlords.

3. Only 6% of the housing stock is considered to be in poor condition.

4. Teachers and professors make up 24% of the population, considerably higher than the City average of 6%.

5. Public transit is the most popular mode of travel for residents.

6. Redevelopment in the neighbourhood is occurring based on the existing Residential R2 Zoning (some R1 and R3 Zones) which has been in place since 1991 and the previous Two-Family (2F) Zoning in the CP By-laws in place since at least the 1970’s. Given the City’s existing regulations there can be 5 bedrooms per unit.

7. Wharncliffe/Western Road carries 20,000 vehicles per day and will be widened to four lanes in 2020.

Recommendations and Directions

1. The Plan establishes a future vision for the neighbourhood as an “Urban Village”.

2. Provides four core principles to implement the vision; 1) enhance character and identity, 2) develop a complete community, 3) support sustainability and healthy lifestyles and 4) connect to University and educational community.

3. The Plan provides opportunities for intensification but recognizes different character areas.

4. Direct additional residential intensification along Wharncliffe/Western Roads.

5. Provides for a diversity of dwelling types.

6. Establish Street Hierarchy.

7. Provides the planning tools to implement the vision including policies, zoning by-law regulations and urban design guidelines.

8. Consistent with the Near Campus Neighbourhood Strategy.

Liaison Response Received to Date

In response to the liaison letter sent October 19, 2012 we received one public comment and one agency comment. They are attached to this report.

Planning staff have also agreed to meet with some neighbourhood residents on Monday, November 19, 2012 to get their comments.

The Name of the Plan
One issue that still needs to be resolved is the title or "branding" for the neighbourhood. The current Draft Plan calls the area “Planning for an Urban Village – London’s Secondary Plan for the Beaufort/Gunn/Saunby/Essex Street Neighbourhood”. It would be beneficial to get neighbourhood public input into an alternative name. Some suggestions to date include:

1. “University Village”
2. “North Petersville Village”
3. “South University Village”

Through comments received on the Plan it is hoped that a name for the neighbourhood will be determined.

Next Steps

Following the public meeting on November 26, 2012 planning staff will finalize the draft Plan and incorporate any directions arising from the public input. A statutory public participation meeting to adopt the Plan will be scheduled in the new year.
