Clarke Road Improvements Municipal Class Environmental Assessment

Veterans Memorial Parkway Extension to Fanshawe Park Road East, City of London

The City of London retained Stantec to complete a Municipal Class Environmental Assessment (EA) study to plan for improvements on Clarke Road to address future traffic volumes associated with background development and improvements to the Veterans Memorial Parkway (VMP). The preferred plan includes a symmetrical widening of Clarke Road from two to four lanes (with consideration given to the ultimate build-out of six lanes). The preliminary design of the Clarke Road corridor includes four 3.75 m lanes with a 1.0 m flush median and 3.0 m paved shoulder, as well as a separated 3.0 m multi-use pathway along the west side of the road corridor. The preferred preliminary design also includes a new multi-span bridge to replace the existing J.W. Carson bridge over the Thames River.

The study was completed following the Municipal Class Environmental Assessment (EA) (as amended in 2015), under the *Ontario Environmental Assessment Act*, as a Schedule 'C' project. A summary of the study process and recommendations are documented within an Environmental Study Report, a copy of which is available for public review for **45 calendar days from Monday, July 29, 2019 to Wednesday, September 11, 2019** online and at the following locations:
