

# Green Municipal Fund

GMF is a leader in driving local green innovation across the country. Through a unique mix of training, resources and funding, GMF can help design and implement sustainability initiatives—from water conservation to green transportation to energy efficiency

Federal budget 2019 significantly expands the work of GMF. That means new opportunities to make residents' lives more secure and affordable. In the coming months, three major new initiatives that can help:

- make affordable and social housing units more energy efficient;
- support home energy projects to make homes more affordable and energy efficient;
- support activities that reduce greenhouse gas emissions from large community buildings.

The Green Municipal Fund is funded by the Government of Canada and delivered by the Federation of Canadian Municipalities.

## Approved initiatives (plans, studies and pilot projects) under the Green Municipal Fund:

Lead municipality/ applicant and province	Project title	Approved funding amount \$
Municipality of Emerson-Franklin, Manitoba	Choosing energy efficiency and renewable energy for building clusters in Emerson-Franklin (feasibility study)	\$33,000
