## Planning Policies

Any change to the Zoning By-law must conform to the policies of the Official Plan, London's long-range planning document. These lands are currently designated as Light Industrial in the Official Plan, which permits industrial uses that involve assembling, fabricating, manufacturing, processing and/or repair activities as the main uses. The subject lands are also within the Airport Road South Industrial Area Plan, which requires that development has a high standard of urban design.

The subject lands are in the Light Industrial Place Type in *The London Plan*, permitting a range of industrial uses that are unlikely to impose significant impacts on surrounding light industrial land uses due to their emissions such as noise, odour, particulates and vibration. Permitted uses will have a tolerance for planning impacts created by a broad range of light industrial uses that are unlikely to impose significant impacts on surrounding areas. The subject lands are also within the Airport Road South Innovation Park – Specific Policies
