

<b>TO:</b>	<b>CHAIR AND MEMBERS CIVIC WORKS COMMITTEE Meeting on February 25, 2013</b>
<b>FROM:</b>	<b>G. KOTSIFAS, P. ENG. MANAGING DIRECTOR, DEVELOPMENT &amp; COMPLIANCE SERVICES AND CHIEF BUILDING OFFICIAL</b>
<b>SUBJECT:</b>	<b>WORLD FIGURE SKATING CHAMPIONSHIPS – PARKING</b>

**RECOMMENDATION**

That on the Recommendation of the Managing Director, Development & Compliance Services and Chief Building Official, this report on private parking lot rates during the World Figure Skating Championships **BE RECEIVED** for information purposes.

**BACKGROUND**

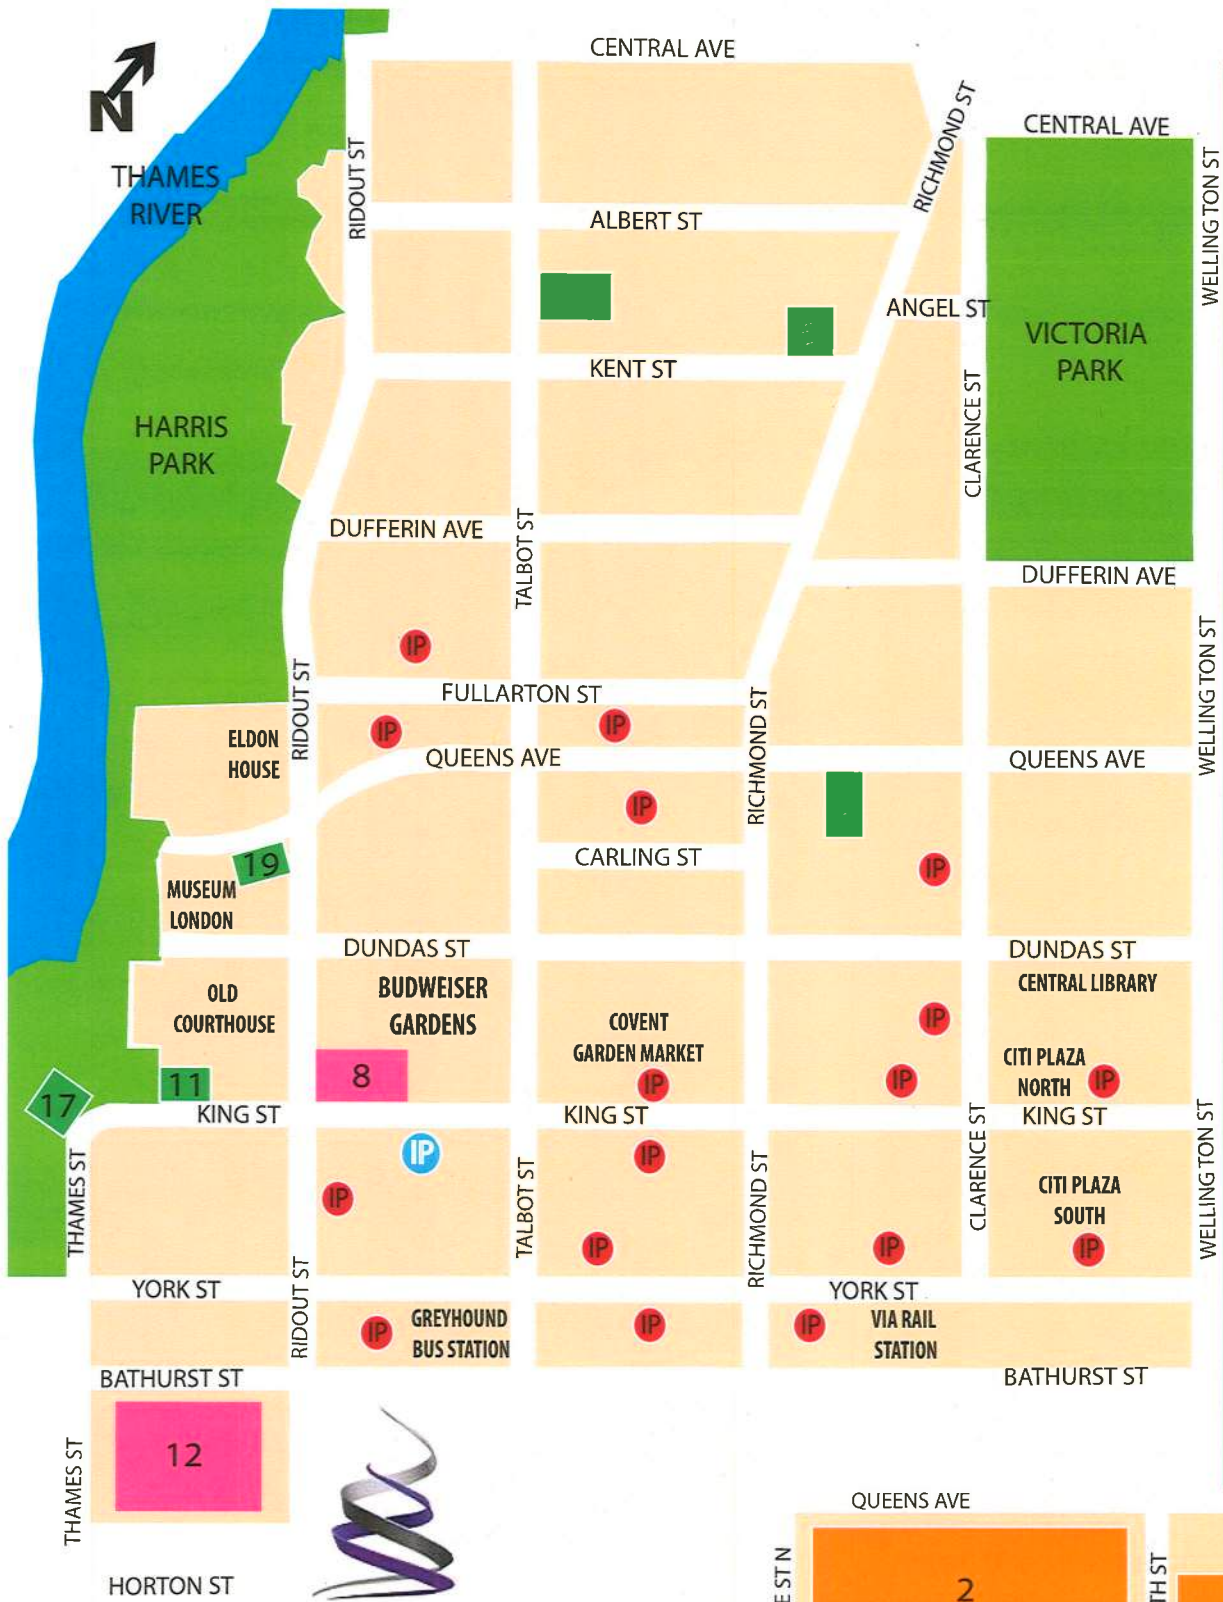

At the Municipal Council meeting on January 15, 2013 Councillor Armstrong enquired about what could be done to avoid excessive parking rates and fines being charged by private parking lot operators during the World Figure Skating Championships.

City Administration has reviewed Business Licensing By-laws and case law relating to the regulation of parking rates and fines charged by private parking lot operators. An attempt by the City of Toronto to regulate through its licensing by-law rates for parking violations charged by commercial parking lot owners and operators was unsuccessful in the courts. While a court has not considered the validity of a by-law that regulates parking rates, court decisions indicate that attempts to regulate parking rates would be problematic. A by-law to regulate the amount of rates or charges would require extensive study and public consultation. Such by-law would most likely be challenged in the courts.

Since the announcement was made about the World Figure Skating event, the City's parking office has been working with Tourism London and Skate Canada on providing parking opportunities in the downtown area. (see attached map). Private parking lot operators were also consulted.
