<b>TO:</b>	<b>CHAIR AND MEMBERS BUILT AND NATURAL ENVIRONMENT COMMITTEE NOVEMBER 14, 2011</b>
<b>FROM:</b>	<b>J. FLEMING DIRECTOR OF LAND USE PLANNING</b>
<b>SUBJECT</b>	<b>CLOSURE OF SOUTHERN 170 METERS OF CRESTWOOD DRIVE</b>

<b>RECOMMENDATION</b>
-----------------------

That, on the recommendation of the Director of Land Use Planning, the following action **BE TAKEN** with respect to the closure of the southern 107 meters of Crestwood Drive:

- (a) "The Chief Surveyor **BE DIRECTED** to initiate the process of legally closing that portion of Crestwood Drive and the 0.305 metre reserve in accordance with the City's Street and Lane closing procedures." The portion of Crestwood Drive to be closed is demarcated by plan attached to the report.

<b>PREVIOUS REPORTS PERTINENT TO THIS MATTER</b>
--------------------------------------------------

No previous reports.

<b>BACKGROUND</b>
-------------------

Crestwood Drive and the 0.305 metre reserve was laid out by Registered Plan 669.

The Parks Planning and Design Division would like to close an untravelled portion of Crestwood Drive and 0.305 reserve lying south of Longworth Road so the parcels can be formally incorporated into the already established Cresthaven Park. The road allowance and reserve is a remainder of the original Crestwood Drive established by Registered Plan 669 and is no longer required as public highway.

Please refer to the Appendix A that designates the subject area in detail.
