

Committee: **EEPAC**

Organization/Sector represented:

Name: **Dr. Maurice Hirst**

Address: **909 - 758 Kipps Lane, London, Ontario N5Y 4Y1**

Occupation: **Professor Emeritus, UWO**

Work experience: **30+ years at UWO, primarily in the Department of Pharmacology and Toxicology. Taught in courses in toxicology at UWO. Served on committees during the developments of the UWO Environmental Science programs. Developed and co-directed a diploma program in Environmental Toxicology in a Mexican university.**

Education: **BSc (Honours) Chemistry, PhD Organic Chemistry, PhD Pharmacology Past Member - Society of Toxicology of Canada, Canadian Society of Forensic Sciences (Toxicology Division) amongst other societies.**

Skills: **Have a strong understanding of issues involving toxic substances and their environmental impacts. Have a strong understanding of analytical matters relating to detection and quantification of toxic substances.**

Interest reason: **I am aware of many instances where toxic materials have been located in the City and its environs. These concern me both professionally and as a member of the London community.**

Contributions: **I believe my professional background will assist the committee if and when toxic substance issues arise.**

Past contributions: **None directly to a City organization. I did some years ago write an article, published in the LFP, on old petroleum residues occurring in the Thames River.**

Interpersonal: **I have broad experience in discussing scientific matters with colleagues and lay individuals.**

Interview interest: **Yes**
