WHEN ACTIVE

The outdoor skating rinks now say to wear a mask BECAUSE your body requires more breath! Chinese kids have dropped dead in masked gym classes. 4 yr olds have developed debilitating lung infections FROM their masks. (My mama always said don't put plastic on your face so) I will not fall prey to this brand new backwards belief system.

No licensed business can discriminate because this is London Ontario Canada!

Spirituality in you was fined for simply having a sign that states 'no mask no problem'. This defines the attack on spirituality. The 2000 yr old spiritual truth is that Jesus was resurrected and he prophesized of his reincarnation. We are all conscious energy and our bodies are temporary temples for this love of god. Our immune system is working and it got us here so congratulations- have no fear. I recommend you search the scriptures and do some soul searching to decide what side of these prophecies you want to be on.

For now it's masks we're talking about, but it's another tip toe stepping stone. Now that they are rolling out the franken-vax, which hasn't finished it's 2 yr warp speed trial and already more of the public have been injected with it than people that were injected in these incomplete trials, the people you have turned against themselves, using fear and guilt, will blame the unvaccinated for the prolonged lockdowns when we really see this is about a larger agenda. If you cared about people and the planet why do you allow geoengineering? BTW-Zero carbon means zero human. We are not the virus yet based on what the PCR is looking for, if you cycled it 60 times we will be 100% positive, treating us like a virus. After all we have been told that humans caused the climate change that created the bat soup that caused covid1984. Why are we trusting China here?! My children will not grow up in a world being treated like a bioweapon, carbon footprint, terrorist that's required to submit to Bill Gates' mark of the beast with military in the streets. Or I guess with technocracy and 5G it'll be robots right? Don't you see that you will be out of a job thanks to A.I. as well?

For now, the Health Care Consent Act of Ontario is being violated by mandating masks which qualify as a medical treatment. Practicing medicine without a license is malpractice. The people are the ones with the power, and that includes citizens arrest.

In case you haven't heard, on November 15 CTV reported that only 166 deaths in Canada over the past 8 months happened outside of so called 'care' homes. December 15 Dr's Yaffe and Williams were caught on mic stating that they are just reading their scripts, so we know they are paid in full to not do their actual job. The number of officials caught not practicing what they preach are in the double digits now.

I hope you didn't mute me on the other side of your screen and please heed this warning. For goodness sake. Show your love or be tried for malfeasance. I will not compartmentalize my spirituality for your fear of physical death. We will fall as a people if we don't recognize the supremacy of god.

Put yourself in the shoes of the elders, do you want to die alone?

ALL CAUSE MOSTLY IS DOWN, LIFE EXPECTANCY IS UP & THE FUTURE IS MISTY  
History is happening in this present moment, and you will be seen in the light or the darkness.

Here we are, 9 months after the 2 extra weeks for a LONG march break. Going on day 300 of 14. While I speak please keep in mind that you are loved, and this comes from a place of compassion for the sake of our health and safety. Why weren't masks recommended at the so-called beginning? We can see where this tip toe is headed... In the summer, this council of the Corporation of the City of London needlessly went beyond Dr. Mackie's recommendations, and even beyond the province's regulations.

I'm now an unemployed single dad homeschooling my daughter as well a freshly failed Fanshawe dropout. There's no way I will subject my 4 yr old to what the teachers are doing in the schools. We have also been denied entry to stores and turned away from the dentist. If I wasn't spiritual, I would fall victim to the depression you perpetuate yet blame on this unicorn virus.

I had plans to buy a house and open my own restaurant, but now, I won't be graduating from my apprenticeship this year, based on being exempt from covering my face but being denied entry for lacking a doctor's note. Students in Ontario are being told this.

Yet Ontario's regulation lays out 16 exemptions and is specific in saying that "for greater certainty, it is not necessary to provide evidence of an exemption" (as that would be discrimination and violate our privacy.) It also states that federal and provincial laws prevail over these regulations. Human rights complaints applications have been postponed since March. The courts aren't processing either. My MP ignores me. This seems like you don't want it to end. HERE'S the flat curve for London's area as of July! There's the hospitals protected from the end of 2019's flu season. But the headline reads 'this fight's not over', (sounding like sore losers as if they're afraid of good news at the so called Free Press.)

Even if I had provided a doctor's note, Fanshawe would've issued me a yellow star sticker of shame for my student card to present when stopped by a special constable as proof of documentation. I came to city hall multiple times but just got phone numbers, LOOK (doesn't include emails).

I've done all the school work I could in the meantime for an online chef program HAHA. Anyways, I tried to satisfy the process. My doctor won't write notes for any of his patients, so Fanshawe tells me to get a new doctor. My family moved here and actually got denied by over 60 doctor's (which is another story,) but we found this one and will stay there.

I was only seeing the doctor because I crashed my bike after the first day of being denied because it was so upsetting and I was blinded by tears. I was told "no mask no school", unless I got a doctor's note, so I tried to see if I could get the note for after I healed my foot. Don't worry, I never went to the hospital or clinic, it was an over the phone assessment HAHA and even that took weeks to get. Nobody is readily available since nothing's done in person. My request for a public participation meeting was ignored too.

I have been ignored, intimidated, bullied, harassed, coerced, threatened, discriminated against and have had confidentiality and privacy breached.

This led me to do my own research and I'll share some. In violation of the Health and Safety Act, oxygen percentage levels drop below 19.5% within half a minute of covering your face. The carbon dioxide ppm exceed 10,000 in the same time. A twelve yr olds mask was analyzed before and after an 8 hr day of school and it developed 82 colonies of bacteria and 4 colonies of mould. Neurological doctor's warn that the brain damage is permanent and we'll see it in a decade or two. A study was performed that halved the amount of infections in a surgery room where masks were abandoned for 6 months. This oxygen deprivation is at the least a crime against humanity, not to mention child abuse. Who's liable?
