Subject: [EXTERNAL] Closing River Road Is A Mistake.

Hello, to whom this email may concern. I have been a member for the city golf courses for the past 5 years or so. Except for last year, where it was impossible to get a tee time that is ideal unless you are able to get up at 6 am too book a tee time for the following week. That is embarrassing, I decided to take my money elsewhere because you closed River Road which was one of the best courses to play in the membership. I have had fond memories there and when I heard it was closed for the year during covid-19 (when you have all these golfers with nothing else to do but golf!!) I was in shock. Instead I heard from friends who bought the membership telling me it was a waste of money, you can't even get a tee time, courses are packed over capacity. Having these problems takes the fun out of the sport in a time where we needed all the fun we could get. If you guys completely remove River Road from the membership and it is permanently closed I will be taking my money elsewhere again and I am aware of many other golfers that will be doing the same thing. Having it impossible to find a tee time is one thing, but when you do find one your playing a 6 hour round is just ridiculous. Bring back River Road in 2021, or lose money on the amount of people that will not want to deal with the hassles of having the membership in a broken system. The cost of the membership when it was revised due to River Road being closed was still not worth it because of all of the issues I addressed.

Thank You for your time,

Justin
