Subject: [EXTERNAL] RR golf course

I have been a member at the London City Golf course since 2006 and I always played at RR until last year. I now live in St Thomas & I will not travel to Fanshaw or Thames to play golf. If RR had been opened last year you would have made money with green fees & tournaments as is was the members took most of the available time This summer will be just as bad with the Covid still going on golf is the only sport available. I hope you consider reopening RR
