

Committee: **Community Safety and Crime Prevention**

Name: **Alan E Lillie**

Address:

92 Heather Cres

Occupation: **Self-Employed (locksmith and security consultant)**

Work experience: **over 12 years in the private security field, from front-line uniform guard and loss prevention, now self-employed as a locksmith and security consultant. Significant focus on increasing security while maintaining building code compliance.**

Education: **Certified as a Professional Locksmith by The Association of Ontario Locksmiths. All of my post-secondary education has been security-specific, and private in nature, including use of force, building codes, privacy, CPTED and biometric security.**

Skills: **I focus on crime prevention. My role in society is to prevent break ins, contain fires and reduce theft. I feel that my years of experience will be of significant benefit to the crime prevention committee.**

Interest reason: **My goal is to make the City of London a safe and secure place to live, work and visit. By focusing on crime prevention instead of reactive correction, I feel I can help to reduce the overall criminal element in the city.**

Contributions: **My experience with both preventing crime and serving victims of crime gives me a unique perspective in how the criminal element works, and how to prevent it. I feel that solid information campaigns will contribute to increasing citizen awareness, and reducing crimes.**

Past contributions: **As a security consultant, I have worked with many different organizations (for privacy purposes, they cannot be named) to recommend and implement ways to increase security and reduce theft.**

Interpersonal: **I have served on a number of boards of directors, including the Argyle Business Improvement Association and for the Church where I am a member. I strive to always conduct myself with respect to the rules of order and decorum to ensure everyone's voice is heard, all opinions are acknowledged and discussed, with a goal toward building consensus.**

Interview interest: **Yes**
