Executive Summary

The Investing in Canada Infrastructure Program is a Federal infrastructure program designed to create long-term economic growth, build inclusive, sustainable and resilient communities, and support a low-carbon economy. Investments in infrastructure are being made through targeted funding streams; under the Public Transit Stream, the Government is investing \$7.5 billion over ten years towards improving the capacity, quality, safety of and access to public transit infrastructure. It is noted that the funding stream at the time of application was originally named “Public Transit Infrastructure Stream (PTIS)” but has subsequently been renamed the “Public Transit Stream (PTS)”.

In March 2019, the Municipal Council approved ten public transit and active transportation infrastructure projects for submission for funding consideration under the ICIP-PTS program.

On June 25, 2019, the Province pledged \$103.2 million for these projects and on August 23, 2019, the Government of Canada announced \$123.8 million in funding. The City of London contribution is more than \$148 million, for a total investment of \$375 million. Eligible cost expenditures were approved and the program requirements communicated to enable progress on projects while the details of the TPA were established.

This report introduces a by-law to authorize the Mayor and the City Clerk to execute the TPA and delegates authority to execute any future Amending Agreements between Her Majesty the Queen in Right of Ontario, represented by the Minister of Transportation for the Province of Ontario and The Corporation of the City of London with respect to the Investing in Canada Infrastructure Program (ICIP): Public Transit Stream.

Linkage to the Corporate Strategic Plan

The following report supports the Strategic Plan through the strategic focus area of “Building a Sustainable City”, under the outcome of ensuring London’s infrastructure is built, maintained and operated to meet the long-term needs of our community. Furthermore, this report supports the Strategic Plan’s key area of focus of “Creating a Safe London for Women and Girls” and the outcome of enhancing the potential for women and girls to live safe lives.

Government partnership and investments supporting public transit infrastructure in London represent important contributions to maintaining and improving the quality of life of all Londoners.

2.0 Financial Impact/Considerations

The Investing in Canada Infrastructure Program (ICIP) is a Federal infrastructure program designed to create long-term economic growth, build inclusive, sustainable, and resilient communities, and support a low-carbon economy. Investments in infrastructure are being made through targeted funding streams; under the Public Transit Stream, the Government is investing \$7.5 billion over ten years towards improving the capacity, quality, safety of and access to public transit infrastructure. It is noted that the funding stream at the time of application was originally named “Public Transit Infrastructure Stream (PTIS)” but has subsequently been renamed the “Public Transit Stream (PTS)”.

In February 2019, the Municipal Council directed the Civic Administration to assemble a list of transportation projects to be considered for provincial and federal funding and able to be delivered within the program timing window of the ICIP-PTS program as per the terms of the TPA. To be considered, the projects had to improve the capacity of public transit infrastructure, the quality or safety of transit systems or access to a public transit system. The program requirements also state that public transit projects and active transportation projects that connect citizens to a public transit system need to be consistent with a land-use or transportation plan or strategy.

In March 2019, the Municipal Council approved ten public transit and active transportation infrastructure projects for submission for funding consideration under the ICIP-PTS program;

- Downtown Loop
- East London Link
- Wellington Gateway
- Expansion Buses
- Bus Stop Amenities
- Intelligent Traffic Signals
- Adelaide Street Underpass Active Transportation Connections
- Dundas Place Thames Valley Parkway Active Transportation Connection
- Dundas Street Old East Village Streetscape Improvements
- Oxford Street / Wharncliffe Road Intersection Improvements

On June 25, 2019, the Province pledged \$103.2 million for these projects and on August 23, 2019, the Government of Canada announced \$123.8 million in funding. The City of London contribution is more than \$148 million, for a total investment of \$375

million. Approval to incur eligible costs was provided in a letter from the Minister of Transportation dated October 10, 2019 and progress on projects has begun.

The TPA formalizes the program requirements and sets out the maximum funds in the amount of \$227,019,949 that will be provided to The Corporation of the City of London for the purpose of carrying out the ten projects on the approved list. The eligibility determination of Own-Force Labour Costs (City staff costs) for the Downtown Loop, East London Link and Wellington Gateway projects is pending and is subject to Canada's written consent:

The Federal contribution toward Total Eligible cost is 40%, Provincial contribution towards Total Eligible cost is 33.33% and the Municipal contribution towards Total Eligible cost is 26.67%, with the eligibility period up to October 31, 2027 as per TPA. Funding for the ICIP program is currently held within the 2020-2023 Multi-Year Capital Budget therefore no additional changes will be required upon execution of this Transfer Payment Agreement.

3.0 Risk Considerations

Risk Management has reviewed the agreement and notes that Article 9.0 – Indemnity requires the City to indemnify and hold harmless the Province from and against any loss or proceeding, unless solely caused by the Province's negligence or wilful misconduct. Although this clause exposes the City to risk, the benefits of the Agreement outweigh the risks. The City will mitigate this exposure through appropriate risk transfer controls set within the construction and consulting agreements associated with these projects.

Conclusion

The Corporation of the City of London has been successful in securing over \$227 million in Provincial and Federal funding for important City projects under the Investing in Canada Infrastructure Program Public Transit Stream.

This report introduces a by-law to authorize the Mayor and the City Clerk to execute the Transfer Payment Agreement, and delegates authority to execute any future Amending Agreements between Her Majesty the Queen in Right of Ontario, represented by the Minister of Transportation for the Province of Ontario and The Corporation of the City of London with respect to the Investing in Canada Infrastructure Program: Public Transit Stream.

BACKGROUND

The Investing in Canada Infrastructure Program (“ICIP”) is a federal infrastructure program designed to create long-term economic growth, build inclusive, sustainable and resilient communities, and support a low-carbon economy.

The Government of Canada (“Canada”) announced, in its *Budget 2016* and *Budget 2017*, over \$180 billion for the ICIP to support sustainable and inclusive communities, while driving economic growth.

The federal Minister of Infrastructure, Communities and Intergovernmental Affairs and the provincial Minister of Infrastructure entered into the Canada-Ontario Integrated Bilateral Agreement for the Investing in Canada Infrastructure Program (“Bilateral Agreement”), for Canada to provide financial support to the Province.

Under the Bilateral Agreement, Canada agrees to provide contribution funding to Ontario under the public transit stream of ICIP.

Also, under the Bilateral Agreement, Ontario agrees to identify projects, including municipal projects, and be responsible for the transfer of ICIP and provincial funds to eligible municipalities pursuant to transfer payment agreements.

The Recipient has applied to the Province for ICIP funds to assist the Recipient in carrying out one or more public transit infrastructure projects.

The Province has submitted to Canada for approval and Canada has approved, in accordance with the terms and conditions set out in the Bilateral Agreement, the Project or Projects, as the case may be.

The Agreement sets out the terms and conditions upon which ICIP funds will be provided to the Recipient for carrying out the Project or Projects, as the case may be.

ICIP-LON-01	Intelligent Traffic Signals	The Project is a critical element in the successful implementation of the City of London’s overall transit plan. The goal of the project is to implement a transportation management system that will be able to make “real-time” adjustments to traffic signaling on key corridors, helping to ease traffic congestion and provide for the more efficient movement of transit vehicles within existing corridors across the City of London. The scope of the Project includes upgrading up to 399 intersections into a high-bandwidth communication network, installation of transit-priority signals and GPS-based tracking sensors, installation of video cameras and travel time monitoring equipment, and the creation of a Transportation Management Centre within an existing municipal building to centralize and coordinate traffic management capabilities across the City of London. The Project will improve the data collection, analysis and dispatch capabilities of the City of London, ensuring greater reliability of the existing and future transit system.	04/01/2020	03/31/2027	08/22/2019	\$19,500,000.00	\$19,500,000.00	\$7,800,000.00	40%	\$0.00	\$6,499,350.00	33.33%	\$5,200,650.00	\$0.00
ICIP-LON-02	Dundas Place Thames Valley Parkway Active Transportation Connection	The Project consists of the construction of new bicycle lanes and improved sidewalks between the Thames Valley Parkway and transit stops along the planned Downtown Loop Bus Rapid Transit, facilitated by a reconstruction of a part of the roadway. The Project will deliver 0.4 km of new bicycle lanes, 0.4 km of improved sidewalks, and 0.25 km of reconstructed roadway. The Project will facilitate active transit that provides a first-mile/last-mile connection to the public transit system, by	01/01/2021	03/31/2022	08/21/2019	\$4,000,000.00	\$4,000,000.00	\$1,600,000.00	40%	\$0.00	\$1,333,200.00	33.33%	\$1,066,800.00	\$0.00

		connecting the Thames Valley Parkway to the Downtown Loop Bus Rapid Transit. Objectives: - The project will provide improved connections for cyclists and pedestrians between the Thames Valley Parkway and nearby stops on the rapid transit Downtown Loop. - This section of Dundas Street currently has a narrow sidewalk and an abrupt midblock end to a bike lane. - By improving the link to the Dundas Place flex street, pedestrians and cyclists will be able to better travel between the pathway system and rapid transit stops via Dundas Place and a short block on Talbot Street.													
ICIP-LON-03	East London Link	The East London Link Project will revitalize 6.3 km of roadway from downtown (King Street) to Fanshawe College by widening Highbury Bridge (overpass), Highbury Avenue and Oxford Street as well as conversion of existing mixed use traffic lanes into dedicated bus lanes; work will include installation of 14 transit platforms along the route, 3.7 km of cycling facilities and a transit hub at Fanshawe College; It will also include intelligent traffic signals to reduce intersection delays and shorten travel times, including transit signal priority, sensors and video. The project also includes the purchase of 9 new buses. Concurrent underground work on sewers and water mains will also be undertaken. The on-street cycling network is not well developed, and at present there is limited connectivity in the existing network, with many lanes and paths limited to small segments of a road. This limits the ability of the current cycling network to provide access to current and future transit services. These shortcomings have previously been acknowledged by the City and the Transportation Master Plan. The proposed multi-use pathways and on-street cycling infrastructure will help to fill in these existing gaps and will act as first- and last-mile connections to the proposed rapid transit corridors.	04/01/2020	03/31/2027	08/21/2019	\$120,200,000.00	\$104,200,000.00	\$41,680,000.00	40%	\$0.00	\$34,729,860.00	33.33%	\$43,790,140.00	\$0.00	
ICIP-LON-04	Downtown Loop	The Project involves the construction of a Bus Rapid Transit (BRT) corridor in downtown London, including dedicated bus lanes, intelligent traffic signals, platforms and bicycle lanes, as well as the relocation and reconstruction of sidewalks and water mains impacted by construction of the corridor. The Project will deliver 2 km of roadways with dedicated bus lanes, sidewalks on both sides of the street (total 4 km), intelligent traffic signals at 12 intersections, 5 transit platforms, 480 m of bicycle lanes and relocate 600 m of water main. Upgrading transit service in the downtown area will improve the speed and reliability of bus transportation, particularly providing improved connections to regional	04/01/2020	03/31/2024	08/21/2019	\$28,500,000.00	\$28,500,000.00	\$11,280,000.00	40%	\$0.00	\$9,399,060.00	33.33%	\$7,820,940.00	\$0.00

		transit nodes (Greyhound and Via Rail stations). The proposed bicycle path infrastructure will act as a first-mile and last-mile connection to the proposed rapid transit corridors by providing connections between the Queens/Rideout rapid transit stop, Dundas Place, and the Thames Valley Parkway active transportation network. Enhanced sidewalks along the corridor will improve recreational walking infrastructure in the downtown core. 100% of rapid transit stops will be fully accessible.													
ICIP-LON-05	Adelaide Street Underpass Active Transportation Connections	The Adelaide Street Underpass Active Transportation Connections Project (the Project), which is a component of the broader Adelaide Street Underpass Project, will construct approximately 250m of four-metre wide multi-use paths on both sides (500m total) of Adelaide Street which will run under a Canadian Pacific Rail (CPR) bridge, in London (Ontario). The Project will also construct approximately 700m of cycling and pedestrian connections to the north and south of the underpass on Central Avenue, McMahan Street and Pall Mall Street. It will also construct a new pumping station and relocate a utility corridor, including watermain, storm water and wastewater pipes. The Project aligns with the City of London's Smart Moves 2030 Transportation, the City of London Plan, and has been identified as highest priority grade crossing in the city. Currently, Adelaide Street crosses two tracks at-grade directly adjacent to a CPR yard on the eastern side of the intersection. The crossing is frequently blocked by trains from the CPR yard, with a daily average of 20 road blockages that last about 4.6 minutes each. These blockages delay all users of the corridor including pedestrians, cyclists and transit users. The Project will facilitate active transit that provides a first-mile/last-mile connection to bus stops on Adelaide street and to future bus rapid transit on Oxford Street.	06/01/2020	03/31/2024	08/21/2019	\$18,900,000.00	\$15,086,729.00	\$6,034,692.00	40%	\$0.00	\$5,028,406.78	33.33%	\$4,920,234.55	\$0.00	
ICIP-LON-06	Wellington Gateway Project	The Project consists of the construction of a complete Rapid Transit corridor along the length of Wellington Road, a primary arterial route into the city's core. The Project scope includes: • Reconstruction of 6.8 km of road between downtown and Highway 401, including widening to establish continuous transit lanes, multi-use paths, bike lanes and sidewalks, totaling 15.4 km of infrastructure which will act as first-mile and last-mile connections to the proposed rapid transit corridors • Installation of intelligent traffic signals including transit signal priority, sensors and video cameras at 15 signalized intersections, as well as equipment for 5 buses	04/01/2021	03/31/2027	08/21/2019	\$131,800,000.00	\$95,300,000.00	\$38,120,000.00	40%	\$0.00	\$31,763,490.00	33.33%	\$61,916,510.00	\$0.00
