Subject: [EXTERNAL] Dundas Place - Temporary Bicycle Lanes

Hello,

I am STRONGLY IN FAVOUR of bi-directional protected cycling lanes!!!! A painted line on either side of the road does NOTHING to protect cyclists from speeding motorists who very often totally ignore the painted lane lines. I am perplexed that the City committee and planners would have opted for this choice. It is a poor choice, indeed. I am a near year-'round cyclist (I do not drive), and I speak from long experience. The bi-directional PROTECTED CYCLING LANES are used throughout Montreal, to the great benefit of safe cycling and good motor vehicle traffic flow.
