Subject: Sarnia Road Widening

RE: widening of Sarnia Road between Sleightholme and Wonderland.

Has consideration been given to the placement of LTC bus stops on either side of Sarnia Road just east of Castlegrove? Currently pedestrians dash across Sarnia Road at significant risk to both themselves and drivers as they either try to access the bus stops or leave after disembarking the bus. Widening will increase those risks if the bus stops remain where they are without the safety of traffic lights.

Thank you for your consideration.
