**I YOUR COMMITTEE RECOMMENDS:**

Meadowlily  
ESA –  
Summary for  
the AWAC

1. (B,2) That the Civic Administration **BE REQUESTED** to consider the rezoning of 168 Meadowlily Road to the same OS5 (Open Space) zoning designation as the Meadowlily Environmentally Sensitive Area (ESA), for the following reasons:

- a) the larger area supports dozens of wildlife species, some of whom are endangered (“a wildlife species that is facing imminent extirpation or extinction”, as defined by the federal *Species at Risk Act*, such as the Round Pigtoe mussel) or threatened (“a wildlife species that is likely to become an endangered species if nothing is done to reverse the factors leading to its extirpation or extinction”, such as the Chimney Swift) and rely on the integrity of the area to survive and thrive;
- b) the Animal Welfare Advisory Committee (AWAC) does not support any of the options currently being considered by the Civic Administration, as they will be detrimental to the ESA, as noted in the attached communication;

it being noted that the AWAC reviewed and received a communication from E. Gerrow, on behalf of the Wildlife Sub-committee, with respect to this matter.
