You want to reduce your environmental impact and save money

That's where Greener Homes London comes in

Greener Homes London will provide suggestions to help you reduce the environmental impact of your household and lifestyle choices. The results are healthier for the environment, for our neighbourhoods, and our community.

How can we help?

Household Audits

Our staff can provide EnerGuide audits, which qualify your home for rebates and incentives for retrofits. Our staff can also provide Greener Homes London Reports, which provide more general information in a variety of environmental areas.

Education & Community Events

Our team will provide information on household sustainability through webinars, workshops, events, forums, coaching & email check ups. Sign up to learn more!

London
Environmental
Network

The Greener Homes London program is administered by the London Environmental Network.
