Hi to whom it may concern,

we own the property at 581-583 Richmond St directly behind the parking lot and very close to the other one across the street we own 633 Richmond , 637 Richmond 209 and 205 Richmond st.

The businesses are Fresno's which is going through a huge increase in space and has 6 bachelors above this that don't have any parking on site . The other 3 businesses are Burger Burger, Delilahs and the Barking Frog, all of these are without parking! Our group is strongly in favour of retaining these properties as parking lots and if development happens it should be made mandatory that a certain amount of parking spaces are made available for transient parkers.

I personally live downtown and walk on beautiful days in the Woodfield district but the weather here in our area has many days that a walk over a couple blocks is not pretty!

Thank you,

Best regards,  
George Anastasiadis
