

Notice of Public Information Centre: Municipal Class Environmental Assessment Pottersburg Sanitary Trunk Sewer

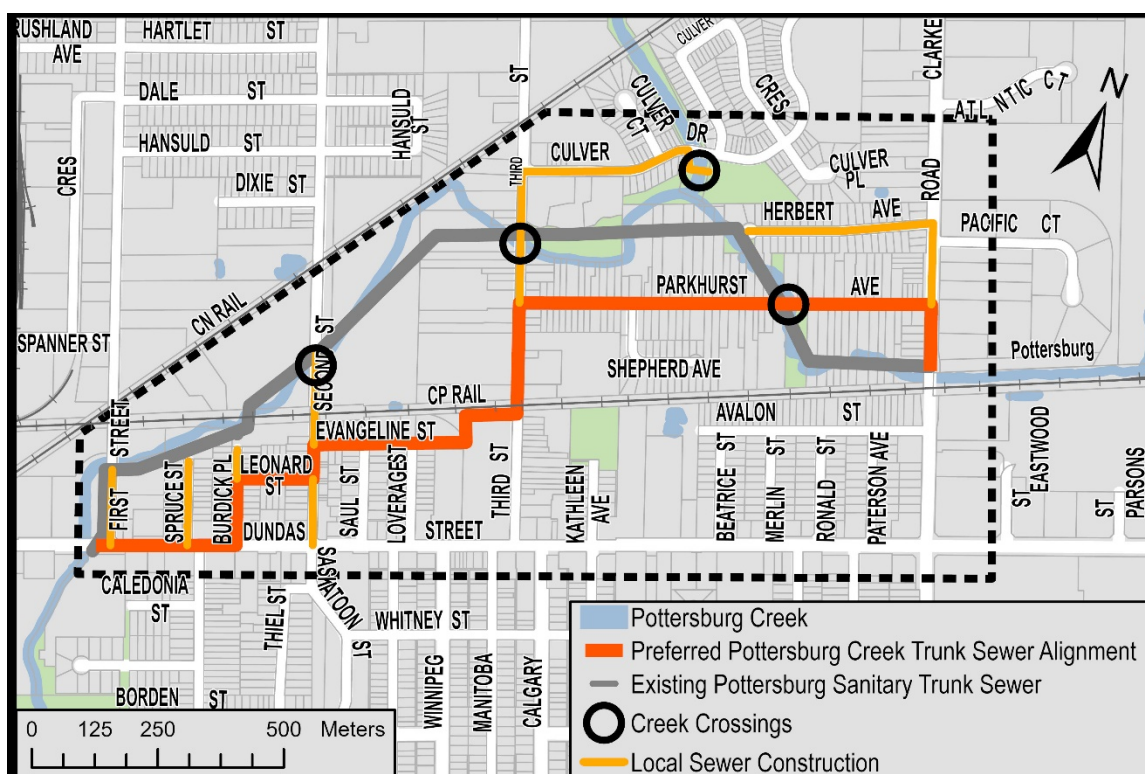

Date: May 19, 2021

The Study:

The City of London is carrying out a Schedule 'B' Municipal Class Environmental Assessment (EA) study to realign and replace the Pottersburg Sanitary Trunk Sewer between First Street and Clarke Road. The existing Pottersburg Sanitary Trunk Sewer crosses the Pottersburg Creek several times with segments of the sewer in poor condition. The scope of this EA is to confirm the preferred alignment to realign and replace the trunk sewer.

Study Area:

This study area for this project is within the Argyle neighbourhood in the City of London, north of Dundas Street between First Street and Clarke Road.

Proposed Project Timeline:

Next steps related to this Study are listed below.

- **Notice of Public Information Centre: May 19th, 2021**
- Submit Civic Works Committee Report to Council recommending the findings of the Environmental Assessment: June 22st, 2021
- Prepare Notice of Completion and post final Environmental Study Report for 30 day public review and comment: July 6th, 2021
- Finalize Study: August 6, 2021

Study Webpage:

For the most up to date information related to the Pottersburg Sanitary Trunk Sewer Municipal Class EA, please refer to the study webpage:

<http://www.london.ca/PottersburgEA>

Public Information Centre Details:

The City of London is presenting a pre-recorded online Public Information Centre where you can learn more about the Pottersburg Sanitary Trunk Sewer EA. The Online Public Information Centre videos will be made available for you to view on the website listed below from May 19th, 2021 to June 18th, 2021. The purpose of this Public Information Centre is to present the scope of the project, confirm the project need, provide review and analysis of alternative solutions, and recommend the preferred Pottersburg Sanitary Trunk Sewer realignment alternative.

While the latest project information would typically be presented at an in-person Public Information Centre, adjustments are being made to ensure public safety and to follow COVID-19 restrictions on public gatherings. Please visit the project website listed below to view the latest project information and documents. The website contains a series of videos of the presentation to help explain the details of the project. If you require any special accommodation in accessing the project information or online material, please contact the City project manager listed below, and we will work together to best share the information with you. If you have specific questions about potential impacts to your property, please contact the City project manager.

How to Get Involved:

The City wants to hear from you. This study would not be complete if it does not consider the needs of all the City's residents and neighbours. If you would like to ask a question, make a comment, or add your name to the contact list, please contact the City project manager either through the Study webpage or through your preferred means of communication. Additionally, you can complete the attached comment form and scan your completed survey and email to the City Project Manager.

Please note that the City will be accepting comments for the EA for a period of 30 days. The question period begins May 19th and will end on June 18th. To ensure your comments are considered and addressed as part of the EA process, please submit your comments prior to June 18th, 2021.

City Project Manager

Name: Alex Corpodean, C. Tech, PACP

Organization: City of London, Environmental & Engineering Services

Phone: (519) 661-2489 (x 8437)

Email: acorpodean@london.ca

Municipal Class EA Process:

This study is being undertaken as a Schedule 'B' project in accordance with all requirements of the Municipal Class Environmental Assessment process (MEA, 2000 as amended in 2007, 2011, and 2015). For details on this process, please refer to

<https://www.municipalclassea.ca/index.html> or contact the City project manager listed above.

Thank you in advance for your participation and contribution to the planning process that will impact your life in the City of London in a meaningful way. We look forward to working with you towards building a more sustainable and environmentally responsible city.

Sincerely,

Kyle Chambers, P.Eng
Environmental Services Engineer, Sewer Engineering Division

Copied: Kelly Scherr, Deputy City Manager, Environment and Infrastructure; Councillor S. Lewis, Councillor M. Salih, Argyle Community Association, Argyle Business Improvement Area, Shawna Lewkowitz, The Urban League

Please note that comments received will be maintained for reference throughout the project and will become part of the public record. Under the Municipal Freedom of Information and Protection of Privacy Act and the Environmental Assessment Act, any personal information such as name, address, and telephone number included in a submission will become part of the public record unless the comments specifically requests that such personal details not be included in the public record.
