Subject: [EXTERNAL] Ward 13 Councillor Vacancy

To Whom It May Concern:

I am a long-time, tax-paying home owner and resident of Ward 13, living in the North Talbot neighbourhood. I am concerned that we now have no representation on Council and hope that a suitable and effective replacement Councillor will be selected as soon as possible.

I am impressed with John Fyfe-Millar's credentials and his knowledge of the issues in Ward 13 (noise, garbage, traffic flow, personal safety, lack of affordable housing, challenges facing downtown businesses, etc.) both as a long-time resident of the Blackfriars area and a business owner, who also has experience working within City Hall.

In the 2018 ranked ballot municipal election, John Fyfe-Millar placed second, being narrowly defeated by the vacating Councillor. This demonstrates the constituency support that he has.

On a personal note, I also like the fact that John is known to many Ward 13 residents and can often be seen walking in Ward 13 (as many of us do). He is more than approachable, affable, and definitely a "Londoner to the Core" – supporting Ward 13 and the downtown as we move forward!

I have lived in my area for over 40 years and also consider myself a supporter of downtown and the core. I can't think of anyone better to represent Ward 13 now, to the next election, and hopefully after the next election if he chooses to run again. He would be a tremendous asset to Ward 13 and we would feel we have a competent, knowledgeable, helpful, and approachable Councillor representing us.

Holding a by-election at this point would be pointless and expensive. John Fyfe-Millar is the logical choice to fill the vacancy.

We need a strong, capable, knowledgeable and approachable Councillor representing us in Ward 13, and John Fyfe-Millar would be ideal. Please move to nominate Mr. Fyfe-Millar to fill the vacancy as soon as possible.

Thank you for considering my recommendation.
