## **Budgetary Quotation**

RE: Heritage House Relocation at 100 Stanley Street, London, Ontario relocating across street

## **Scope of Work**

- Install steel framework
- Lift building free of current foundation
- Load onto fully oscillating hydraulic steering dollies for travel
- Relocate to new location
- Place according to your surveyor's marks
- Hold building in place to while basement built by others
- Remove steel framework

## **Exclusions**

The following are not in our scope:

- Cleaning out of current basement of all organic materials
- Permits
- Police
- Overhead Utility relocations and movement to accommodate move
- Foundations for building
- Excavation around the perimeter of the building down to footing level to allow for placement of steel beams
- Excavation for foundation
- Service disconnections and reconnections
- Surveyors required permanent building placement

**Assumptions**

The following is assumed in the pricing

- Building relocated to lot directly across the street
- Adequate laydown area for relocation steel and equipment
- Onsite parking for company trucks
- Temporary power and water
- Minimum six ft basement under current structure and new foundation

**Cost**

The cost for the relocation will be approx. Three Hundred Seventy-Five Thousand Plus HST

Based on supplied information and is to be used for budget purposes only

Yours Truly
