**Subject:** [EXTERNAL] Masonville Secondary Plan - comments re Fawn Court

Dear City Councillors:

On behalf of the residents of Fawn Court, we would like to thank Maureen Cassidy and staff in Planning & Development for listening to our concerns and feedback regarding the draft Masonville Secondary Plan. The community feels strongly that the existing access routes to public transit and hiking trails are safe and convenient and that the existing walkway connection to the Masonville area is easily walkable and accessible. We all take advantage of this existing walkway off of Robinson Lane to access the amenities in the area rather than driving in this congested area. The changes proposed in the draft Plan would have negatively impacted this wonderful and unique neighbourhood permanently in many ways.

We appreciate the time and effort taken over several months to listen to and respond to the concerns of the Fawn Court community. We are pleased with the changes made to the draft Plan to address our concerns and that a specific policy has been included in the final plan for 109 Fanshawe Park Rd. W. to enhance the buffering, screening and landscaping adjacent to Fawn Court in any future development.

Sincerely,

Vladimir & Mary Stopar
