

Dear Corporate Services Committee,

Please include the following email communication to the next Corporate Services Committee meeting agenda.

I am aware that presently there is little that Council can do to have a Councillor removed from office, as may be deemed to be warranted. I am also aware that citizens can file a complaint to the Integrity Commissioner, but, again, any response from the Integrity Commissioner cannot result in the removal of a City Councillor. To this, I am wanting the City Council to take this serious matter to higher offices! I request that the Municipal Council lobby the Province for the ability to remove a Council member from their elected office. This is the reason why I am emailing the Corporate Services Committee. It is my understanding that this request must be made to this committee!

To this end alone, it is imperative that the Corporate Services Committee lobby the Province for the ability to remove a Council member from their elected office.

I trust that the Corporate Services Committee is dedicated to the best interest of London and area residents and that the Corporate Services Committee will do all in its power and ability to deal with this serious problem with much haste.

A concerned London citizen,

Jim Kogelheide
