

Good evening

My name is Lynn Kellestine my husbands name is Frank Kellestine

I am concerned about the homeless moving on to the golf course in the trailers we live directly beside the golf course on River Rd about a hundred feet from the trailers we have owned the property and lived here for 60 years we have no security and we fear for our physical safety there are no street lights and no sidewalks it is very dark on our street many of the homeless are addicted and their drug of choice is crystal meth I have seen what that drug does to people I will have to purchase cameras, blinds, and lights for my property as I know they will come on my property to steal things and possibly break in my house how can you pass this without speaking to anyone in our Rd and hear our concerns we are not remote there are many homes and businesses on this road that object to this decision My neighbor has been here for 20 years she is retired and is very frightened she was at my home tonight crying with fear She is planning on selling her house and moving out of London because of this she is besides herself I will not be able to go to work as I won't leave my house unattended for fear of a break in I am on a group on Facebook about what is happening in our city's core area and how people are being threatened they call the police only for them to sit in que so what is going to happen when we have to call the police and get no response I am very fearful and do not feel safe with this decision we are again not a remote area there are no bus service on this rd the road is so bad it goes into one lane because of the massive pot holes this is again a terrible idea and I am scared to death I fear for my life

Lynn Kellestine
