## **Windermere Road Improvements, City of London Municipal Class Environmental Assessment Study Notice of Public Information Centre #2**

### **The Study**

The City of London is undertaking a Municipal Class Environmental Assessment (EA) study to identify intersection, active transportation, and transit improvements to the Windermere Road corridor between Western Road and Doon Drive (see map). The study will also assess the potential to connect active transportation facilities along Richmond Street from Windermere Road to the Thames Valley Parkway trail system. In addition, the accessibility improvements along the corridor and intersections will be implemented to accommodate road users of all ages and abilities.

### **The Process**

The study is being conducted in accordance with the requirements of Schedule 'C' projects as outlined in the Municipal Class EA document (2000, as amended in 2007, 2011 and 2015), which is approved under the Ontario Environmental Assessment Act.

### **Online Public Information Centre**

The purpose of this online Public Information Centre (PIC) is to present the alternative design concepts, environmental impacts and proposed mitigation measures, the Recommended Design Alternative, and next steps. While this project information would typically be presented at a public information centre event, adjustments are being made to ensure public safety and follow COVID-19 restrictions on public gatherings.

The City of London is committed to informing and engaging the public about this study and will be hosting a live webinar via videoconference using the Zoom platform on November 8, 2021 from 5 p.m. to 7 p.m. to present a project update, answer questions, and collect feedback from attendees. A link to the meeting will be posted on the City of London's Get Involved website, at [getinvolved.london.ca/windermere](https://getinvolved.london.ca/windermere). The webinar will also be recorded and posted on the project website on November 9, 2021.

We recognize that not everyone will be able to access this information online. If you require any accommodation to access the project information or online material, please contact the City Project Manager, Paul Yanchuk, noted below and we will work together to best share the information with you.
