Subject: Taxi and Limousine bylaw

I talked @ the public participation meeting and here is the summary of my talk:

1) Vehicle age:

I would like to thank the bylaw administrators for proposing 6 years for the age the executive limousine. This what checker limousine brokers and drivers association has asked for for some time.

2) Vehicle model:for executive limousine:

The current bylaw approves only three vehicles, namely lincoln town car, cadillac and chrysler 300, to be licenced as executive limousine. The first two vehicles are no longer manufactured. Therefore other options have to be included in the new bylaw.

3) Licenences Fees:

The proposed renewal fees have increased dramatically without justification. The rate of the increase does not match the inflation rate which i believe should be the major factor to decide the new rates.
