Planning Policies

Any change to the Zoning By-law must conform to the policies of the Official Plan, London's long-range planning document. These lands are currently designated as Agriculture, Open

Space, and Environmental Review in the 1989 Official Plan. The Agriculture designation permits the cultivation of land and the raising of livestock as the main uses. The Open Space designation permits parks, private open space, flood plain lands and lands that are subject to natural hazards, components of the Natural Heritage System, and lands that contribute to important ecological functions as the main uses. The Environmental Review designation permits existing uses, agriculture, woodlot management, horticulture, conservation, and recreational uses, and essential public utilities and municipal services as the main uses.

The subject lands are in the Farmland, Green Space, and Environmental Review Place Types in The London Plan. The Farmland Place Type permits agricultural uses, residential uses on existing lots of record, home occupations, secondary farm occupation and on-farm diversified uses, agricultural-related commercial and industrial uses that are directly related to farm operations in the area, ancillary retail for on-farm grown and/or produced goods, limited non-agricultural uses, natural resource extraction, small wind energy conservation system, green energy projects and existing uses. The permitted uses in the Green Space Place Type vary considerably dependent on natural heritage features, hazards and natural resources and may include parks, private green space uses such as cemeteries and private golf courses, agriculture, woodlot management, horticulture and urban gardens, conservation, essential public utilities and municipal services, storm water management, and recreational and community services. The Environmental Review Place Type permits existing uses, agriculture, woodlot management, horticulture, conservation, and recreational uses.
