A New Opportunity for the City of London

Seeing this MUCH DIVERSITY is unique.

The mural will help students, educators, community workers, and the wider public understand the world we live in better.

Lily

I remember showing Lily, a neighbour, the very first version of The Champion for Life™. It yet wasn't official, it was just a print out.

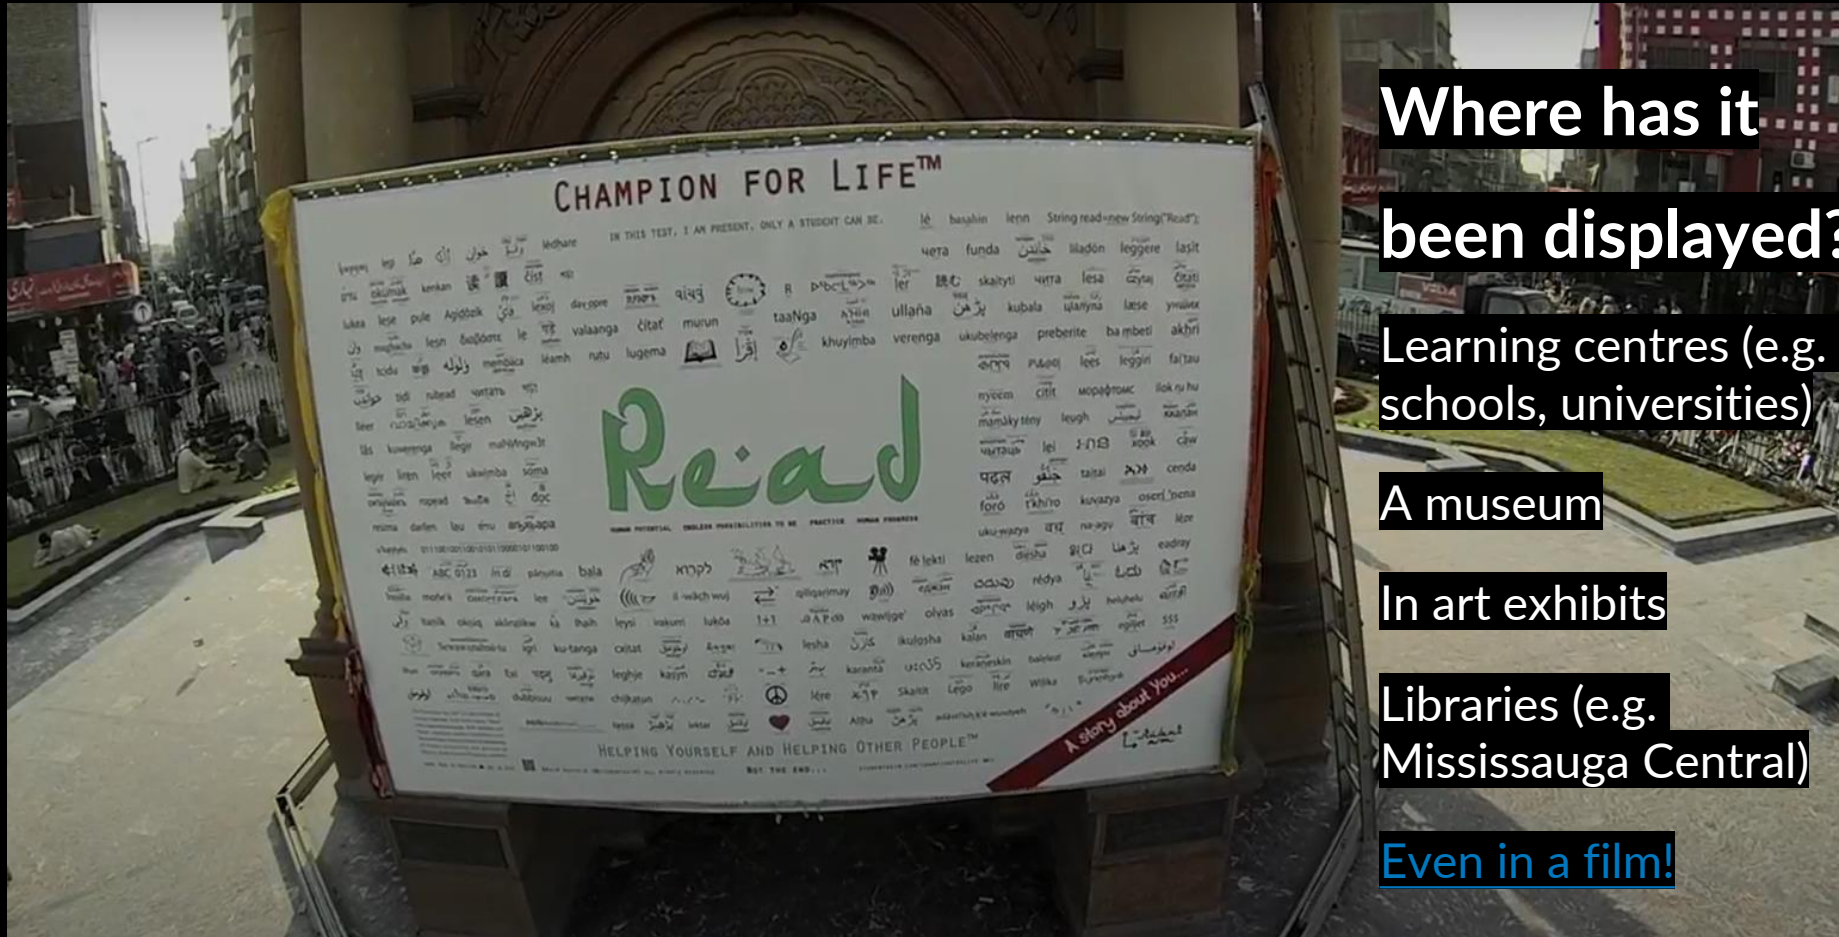

When she saw Tigrinya, her eyes lit up. She had never seen her mother tongue on a public project. She was instantly empowered and I'll never forget it.

From @studentAsim

This project is over 10 years old. In that time, I simply can't do justice to the conversations, stories, and learnings I have seen as people of diverse backgrounds have made meaning from *The Champion for Life™*. It is truly an honour to be part of something that continuously creates empowerment.

@studentAsim is the producer of *The Champion for Life™*.

A group of people are running on a grassy field at night. The scene is illuminated by bright stadium lights, creating a high-contrast environment. The runners are in various stages of their stride, and their shadows are cast on the grass. The background is dark, with some distant lights visible.
