**Coves Special Policy Area (Draft) - Background Report on the \$2.00  
(April 1995; 31 pgs.) (Policy Section)**

This Background document was prepared to support the City’s application for the designation of the Coves Special Policy Area, consistent with provincial policies for flood plain planning. The Coves are a long-established neighbourhood just west of Downtown. The area is bounded by an ancient meander of the Thames River, and is susceptible to flood damage. Current provincial policies would not permit development in the area.

**W12A Landfill Area Study – Terms of Reference** **\$5.00**  
**(November 2004; 80 pgs.)**

Over the past several years, considerable attention has been given to the future of the W12A Landfill on Manning Drive. This facility has been a primary focus in the preparation of London/Middlesex Waste Management Plan, a process which is being guided by a Steering committee of City of London and county of Middlesex elected officials and staff of the City, county and Ministry of the Environment. The goal of the Plan is to ensure that the necessary parts of an environmentally and economically sound integrated waste management systems are in place to serve the needs of the city and county for the next 25-40 years. It is expected that the W12A site will be a major part of this system for the 25-40 year period.

**West London Area Improvement Plan** **\$4.00**  
**(March 1993; 81 pgs.) (Policy Section)**

This report established the West London Community Improvement Area, and set out the priorities for capital improvement projects in the neighbourhood. These projects, including park land improvements, sidewalk installation, street improvements, etc., were identified through a neighbourhood survey that addressed neighbourhood deficiencies. Works were undertaken in 1994 and 1995 to implement some of the identified improvement projects.

**Wolseley Neighbourhood Study** **\$9.00**  
**(November 1994, 182 pgs.) including**  
**Addendum (June 1995; 23 pgs.)**

In 1989, the Federal Government announced that approximately 70% of the Wolseley Barracks site has been deemed surplus as part of a Federal fiscal plan to cut military costs. An area study was prepared to guide future development of the surplus lands. A community consultation strategy was implemented which involved the public in all aspects of the land use planning process. Through careful consideration of all public comments and recognizing the location and site opportunities and constraints, the area study represents a desirable balance of land uses including a range of residential, commercial, office and community facility land uses.
