**Subject:** Added Communication for B&NE Committee: Fluoride in the public water system

**Added Communication for the B&NE Committee, Monday, November 28, 2011**

Chair and Members  
Built and Natural Environment Committee  
The Corporation of the City of London  
c/o the City Clerk's office

**Re: Staff report regarding adding fluoride to our public water system, Clause 2**

At the very least, the Built and Natural Environment Committee and City Council thereafter should support adding a **question to the 2014 municipal election ballot** regarding the use of fluoride in our water.

Let London voters decide if they support this now-controversial practice, noting that it has been 44 years (as of 2011) since Londoners had an opportunity to vote on the matter.

Sincerely,  
**Barry Wells**
