What do you hope to contribute or learn as part of a Community Advisory Committee? (max. 250 characters): **Although it took me a few meetings to "get my feet wet", the past three years have given me a better insight into the work of Advisory Committees and how the committee members can bring ideas forward to make transportation in London more accessible and provide a better "flow" for the citizens of London. I feel that our discussions and the ideas we presented have been well-received and worthwhile.**

How will you support the work of a Community Advisory Committee? (max. 250 characters): **I feel that a CAC should be comprised of citizens with varied backgrounds and experiences but always working together for the betterment of other London citizens. That is something of which I am strongly supportive. In this way, the shared experiences of all the members offer solutions to varied situations.**

Please describe additional experience, training, or community involvement that will help you in your role as a Community Advisory Committee Member. (max. 250 characters): **I have travelled quite a bit around the world using various modes of transportation and have had both positive and negative experiences which I can share and have shared with my fellow members.
