The subject lands are located in the Light Industrial Place Type of The London Plan as within the City's Southwest Area Secondary Plan. The Light Industrial Place Type is intended to facilitate a broad range of industrial uses that are unlikely to impose significant impacts on surrounding light industrial land uses due to their emissions such as noise, odour, particulates, and vibration. The Southwest Area Secondary Plan is intended to will allow for the shift in market demand from industrial to residential uses over the long term, yet still allow the existing industrial properties to continue to develop as light industrial uses over the short term.
